This is a scan of a blank page from a document. The paper has a slightly off-white or light gray tone. There are some very faint, blurry marks scattered across the surface, which appear to be either dust particles or artifacts from the scanning process. No text, figures, or tables are present on this page.

ZYXWVUTSRQPONMLKJI

A close-up photograph of a calibration target. It features several sets of numbers and patterns. At the top, there are three large numbers: '123', '122', and '120'. Below these, there are several rows of smaller numbers and patterns, including '123', '122', '121', '120', and a series of dots. The target is placed on a textured surface.

EASTMAN KODAK METHYLENE BLUE ANALYSIS

Customer Name:

Address:

MICOR
800 Chermont Dr.
Bensalem Pa 19020

Your sample film strips have been tested for archival quality (residual thiosulfate concentration). They were tested according to the methylene blue method described by the American National Standards Institute.

Concentrations of less than ($<$) 1.4 μg (micrograms) indicate archival quality, and greater than ($>$) 1.4 μg indicates non-archival quality. The test is only meaningful and accurate if performed no later than two weeks after processing. It is our understanding that we have received your film within the 2 week time-frame.

Actual test readings are provided below, as well as "pass/fail" check marks.

TEST IDENT.	ACTUAL CONCENTRATION	MEETS ANSI STANDARD ($<$) 1.4 μg	DOES NOT MEET ANSI STANDARD ($>$) 1.4 μg
6-1-90	< .20	☒	☐
		☐	☐
		☐	☐
		☐	☐
		☐	☐
		☐	☐
		☐	☐

Archival quality, as measured by residual thiosulfate concentration, is defined in ANSI Standard IT9.1-AS. "A photographic film composed and treated so that under archival storage conditions it is suitable for the preservation of records having permanent value". This same Standard sets the archival limit at 1.4 μg for residual thiosulfate.

For additional information on archival storage conditions, you may wish to ask your Kodak representative for a copy of Kodak Pamphlet D-31, "Storage & Preservation of Microfilm".
